

MARI LKHAGVADULAM BOLDBAYAR

Dublin, Ireland | +353 85 763 2964 | Lhaagiimaa@gmail.com | [Online Portfolio](#)

PROFESSIONAL PROFILE

MSc Cybersecurity student at the National College of Ireland, following completion of a Higher Diploma in Science in Computing in May 2026. Building specialist knowledge in network security, penetration testing, digital forensics, cloud security, incident management, cryptography, malware analysis and AI/ML in cybersecurity. Technical foundation in Java, Python, web technologies, databases, object-oriented programming and distributed systems, complemented by multidisciplinary experience in management, marketing and accounting. Seeking an entry-level cybersecurity, SOC, information security, digital forensics, incident response or cloud security opportunity.

TECHNICAL SKILLS

Cybersecurity: Network Security; Penetration Testing; Security Fundamentals; Digital Forensics & eDiscovery; Cloud Security; Incident Management; Malware Analysis; Cryptography

Programming: Java (Intermediate); Python; JavaScript; HTML; CSS

Databases: MySQL; H2 Database

Development & Tools: Object-Oriented Programming; Data Structures & Algorithms; Distributed Systems; Spring Boot; Maven; gRPC; Protocol Buffers; Git/GitHub; IntelliJ IDEA; Visual Paradigm

Cloud & Infrastructure: AWS Cloud Fundamentals; Cloud Architecture Concepts; Computer Networks; Operating Systems

Methodologies: Agile; Scrum; Software Development Lifecycle

EDUCATION

MSc in Cybersecurity

National College of Ireland (NCI), Dublin, Ireland | Sep 2026 – Expected Aug 2027

Semester 1: Network Security and Penetration Testing; Security Fundamentals; Data Governance, Ethics and Sustainability; Forensics and eDiscovery. Semester 2: AI/ML in Cybersecurity; Business Resilience and Incident Management; Cloud Architectures and Security; Cryptography and Blockchain; Malware Analysis.

Higher Diploma in Science in Computing – Level 8

National College of Ireland (NCI), Dublin, Ireland | Completed May 2026

Coursework: Object-Oriented Software Development; Web Development; Databases; Data Structures and Algorithms; Advanced Programming; Distributed Systems; Computer Architecture; Operating Systems; Computer Networks.

Professional Master's in Digital Product Design (UX/UI)

TECH Global University | 2023 – 2024

Master of Arts in Social Welfare

Daehan Theological University, South Korea | 2015 – 2017

Bachelor's Degree in Accounting

Mongolian University of Life Sciences, Mongolia | 2008 – 2012

CERTIFICATION

AWS Cloud Certification – Cloud computing fundamentals including architecture, security, deployment and scalability.

TECHNICAL PROJECTS

Smart Home Automation System

- Developed a distributed smart-home automation solution integrating multiple services and device workflows.
- Implemented service communication using gRPC and Protocol Buffers and applied distributed-systems concepts.
- Explored real-time monitoring, reliability and security considerations for connected IoT environments.

Technologies: Java/Python, gRPC, Protocol Buffers, Maven

Fashion Retail Shop Management System

- Designed a software solution for retail sales, inventory, customer transactions and payments.
- Created use-case models, sequence diagrams and conceptual class diagrams and designed relational database structures.

Technologies: Java, MySQL, Visual Paradigm

Student Management / Web Application

- Developed a Java/Spring Boot web application with database integration and backend application architecture.
- Applied object-oriented programming and web-development principles.

Technologies: Java, Spring Boot, Maven, H2/MySQL, HTML

PROFESSIONAL EXPERIENCE

Assistant Manager

Giant Hotel, Seoul, South Korea | 2020 – 2021

- Coordinated daily operations, staff training, customer-service processes and performance support.
- Analysed sales and operational information and managed inventory and reporting in a fast-paced environment.

Product Marketing Specialist

Ulemj LLC, Ulaanbaatar, Mongolia | 2018 – 2020

- Analysed product and market information, developed positioning and campaign materials, and coordinated vendors and partners.
- Used data analysis to evaluate campaign performance and identify opportunities for improvement.

Accountant

Nomadic Expeditions, Ulaanbaatar, Mongolia | 2012 – 2014

- Managed accounts payable/receivable, reconciliations, financial reports, budget forecasts and monthly closing entries.
- Maintained accuracy and confidentiality while handling financial information across multiple company accounts.

LANGUAGES

Mongolian: Native | **English:** Advanced | **Korean:** Advanced
